Hi Steven:

I am attaching the Chain of Custody for the Phylochips sent out for Central Sands Dairy. Please let me know if you need anything else, so that I can get the results of the these tests.

Thank you.

Sincerely,

Cheryl Burdett

I'm not sure if you did. It may be buried in my email. I think the only gps data I have for sure is from R1.

Ok. So do you need the GPS data for the sampling I did in July at Windy Ridge or did I send you that information already?

Sincerely,

Cheryl Burdett

Subject: RE: Phylochip Shipping information

CoC works well for tracking. If you notice on the last one, the blank was listed twice. Caused a little confusion, but not that big of a deal. We're trying to get the lab used to the "production" aspect of what we are doing. Chain of custody and individual sample billing is a new thing for them, so it's caused some ruffled feathers when it comes to submitting invoices.

For the meta data, I'll be looking for things like GPS data and a bunch of generic sample info.

Awesome, thanks for the update. Sorry for the botched shipping! I thought I sent out an update about that, but most likely I forgot. I think I updated the projects I knew were going on, but I wasn't aware you guys were sampling. Sorry again!

Yes, that is the new address. Were there references included in that batch? We can re-run old samples with that data if so. We just need to document which ones they are.

I'll be getting in touch with you in the near future hopefully for some meta-data from these samples. We are creating an agency database to house all the data to make running future source reports easy.

So they shipped to the wrong location, but Cinta informed Aaron and he sent the samples again to the following address:

Cinta Gomez-Silvan

717 Potter St.

Bld. 977 RM 109

Berkeley, CA 94710

Is this the correct address?

Morning!

I just got the samples. The box was unopened and the samples were frozen. I stored them at -80C and we'll process them ASAP. Find the CoC signed attached.

Thanks and have a great day,
~ Cinta ~

If you put enough ice packs and the shipping is done in one day, I think the samples will be ok.

Hi Aaron,

I'll be around this week and until the 21st. If you can send the samples today that would be ideal, to be sure that they arrive before the holidays lab shutdown, which start the 22nd.

Thanks,

~ Cinta ~

On Dec 12, 2017 5:58 AM, "Jastrow, Aaron" <jastrow.aaron@epa.gov> wrote:

Hi Eric,

I have some more samples from R5 to send. If I send them on Monday the 18th will someone be there to receive them. I will send them as before. If by chance I can send them today will that be ok. I will be gone tomorrow but can have sent though. Please inform me which is the best time.

Thank you.

Or I can bring them to SFO on the 22nd of December as I go to Napa for the holidays☺

X) Shipping – Gary, Eric, Cinta. contact, overnight, dry ice or ice packs

When you send us filters, ship them overnight in an insulated container with ice packs. Ship them Monday-Wednesday so they get here no later than Thursday. You can use whatever carrier is convenient to you but more importantly, let us know when you have shipped a sample so we can track them. They can be sent to the attention of me or Cinta Gomez-Sylvan in Building 70A room 2253 and you can put in my phone number for the contact.”

Gary's number is 510-495-2795

Gary Andersen or Cinta Gomez-Sylvan

Building 70A room 2253

Lawrence Berkeley National Lab
1 Cyclotron Road
Berkeley, CA 94720

XI) Coordination – data delivery, shipping notification, billing.

Who does data get sent to, notify me upon shipping, chip tracker
